Location:	Ft. Lauderdale, Florida, United States		

Accommodations

Vessel can sleep 8 in four separate cabins. Four of the cabins have their own en suite enclosed head and shower. Two crew cabins share one large head and shower located in the corridor. All accommodations are air conditioned and have their own AC controls.

In a 2007 refit, new floors, new countertops and new leather paneling were installed in the master stateroom, guest cabins and heads. All woodwork and doors were refinished in all the heads on board.

Salon

The salon features a dining table and chairs to starboard and a sofa with two easy chairs and a coffee table on the port side. A flat screen pop-up TV new in 2007, is to starboard. There is a mirrored bulkhead aft which gives the illusion of even more space in what is already a spacious area. The floor is teak and holly and stairs leading to the cabins are forward on the starboard side.

During the 2007 refit, new teak and holly floors were installed, valances were replaced, new countertops installed, all woodwork and the dining table was revarnished.

Galley

The large and functional U-shaped galley is located between the pilothouse and salon. It features a large refrigerator with a water and ice dispenser and a large upright freezer. The stove, dishwasher and trash compactor were replaced in 2007. The refrigerator and freezer were refaced, all carpentry was refinished, additional storage space was added and the teak and holly sole was also redone in 2007. The galley counters are stainless steel and a sliding partition opens access to the salon for serving.

Master Stateroom

The master stateroom is aft with a large island bed and a settee to port. There is considerable storage and a hanging locker. An en suite bath with a Jacuzzi tub and shower complete the master stateroom.

Guest Staterooms

Forward of the master stateroom to port and starboard, there are two large staterooms with a double walk-around bed, enclosed hanging lockers and an en suite bath with shower in each cabin. Forward further to port is a guest cabin with upper/lower bunk style beds and a separate head with shower.

The crew quarters consist of two cabins with upper/lower berths and share a head/shower in the corridor.

Pilothouse

The pilothouse has good visibility, full instrumentation and a comfortable settee with a table. This is a pleasant place in nasty weather. During the 2007 refit, the countertops were replaced and all the windows were tinted.

Electrical and Mechanical Equipment

Westerbeke 25 KW generator

Westerbeke 15 KW generator

Detroit Diesel Allison transmissions

24 v system with 24 batteries

The 12 v system is by a converter off the 24 v system

24 v Professional Mariner Protec 4 battery charger

12 v Raritan T4012F-3 battery charger

Two Heart Interface 2500 watt model 81-025024

Five CruiseAir units with heat, 88,000 BTU

The AC system is 120/240 v with four 50A shore power connections. One on each corner of the boat and galvanic isolators. The system is polarized and there are two 15 KVA transformers
Watermaker

Sea Brace stabilizers with aluminum fins
