# LOOPER CRAWLS & MORE

## LOOPER CRAWLS

Looking for a boat? Not sure where to begin? Attend a Looper Crawl at the Rendezvous and see all kinds of makes and models in person! Boats range in size from 50-foot trawlers and motor yachts to smaller cabin cruisers and trailerable boats.

The Looper Crawl functions as an "open house", where members who brought their boats to the Rendezvous allow other attendees to tour their boat. Ask questions! Owners love explaining why they chose their boat. It's a great opportunity to get answers from people who are currently cruising the Loop or have already completed the Loop.

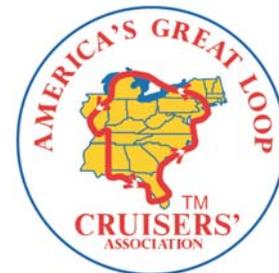

Even if you have a boat, the Looper Crawl allows you to mingle with other boat owners and get ideas for improvements or enhancements aboard your own vessel.

## VESSEL SAFETY CHECKS

Safety is a boater's first concern, and we're here to help put your mind at ease with complimentary vessel safety checks.

A certified boat inspector (certified by Coast Guard Auxiliary or United States Power Squadron) will check for all Coast Guard mandated equipment.

The inspector will also check the general condition of the boat and look for problems such as leaks, oil in the bilge, etc. Once the safety review is over, you'll receive a compliance sticker noting the date of inspection.
